Manager Billy Shettsling of the visiting Phillips did not have much hopes of seeing White carry his team to victory yesterday. White has never been far from home he fore, and he displays unmistakable signs of homesickness. He mopes about the hotel like a man who has lost his lost friend. His games on the home grounds have been good and his work yesterday cannot be taken as a criterion of his ability as a twirler.

well as an outfielder.

"Shorty" Slagle, who was batting well over the 100 mark all last season, is thoroughly discusted with the foul-strike rule, as his sticking average to date is only 10%. The diminuitye left fielder threatens to go home and stay there if he does not improve his batting soon.

Eddie Marphy has pitched two games this season which would have been victories with clean play behind him. It is said-by one who knows the youngster well that he lacks ambition, and is too prone to jolly with every one, whether in a game or on it be bench. Most youngsters have more ambition than ability, and it is generally said of a youth who lacks the former that "he will not do." There are few who believe that Murphy "will not do," however, and the chances are that he would be a top-notcher in the puzzle business to-day if he had been forced to make a fight for his job this spring.

Douglas rapped a duster down to Dick Padden in the fifth inning which came near taking the brainy second baseman off his plus. The ground is a bit lumpy about se-ond from the recent heavy rains, and the

# Mercury ME

Everybody knows that Mercury is a danger ous medicine even when administered in very small doses, and few constitutions can stand it for any length of time. Potash produces inflammation of the stomach and bowels, and a dangerous form of dyspepsia and often chronic diarrhea follow its use.

Now, the doctors will tell you if you have Contagious Blood Poison you must take these minerals for two years or longer; first, a course of Mercury, and when your teeth get so sensitive and sore that you can't eat, and the gums have a spongy, unnatural appearance, you are told to stop and a change to Potash is made. When the stomach rebels you are put on Mercury again, and so on ad infinitum, or until the system becomes so thoroughly saturated with these poisonous drugs that the most disgusting sores break out on the body, the bones become diseased, and the muscles and joints are racked with the most torturing pains. Mercury and Potash drive the cruptions and blotches from the skin, but the virus remains in the blood and the reappearance of the old symptoms and the occasional sore mouth show that the poison is still active, and you can never hope to completely eradicate it by this method of treatment.

When I was about twenty-one years of age, or eighteen years ago, I contracted Blood Poison in a bad form, and am satisfied that the rapid progress the disease was making would soon have made me a life-long invalid or ended my life. As my system can under the influence of S. S. S., the scres, spletches and pimples gradually disappeared and soon no evidence of the disease was left. I am new thirty-nine years old, and have seen no signs of it during the past eighteen years. S. S. S. does all you claim for it.

S. S. S. is the only purely vegetable blood purifier known, and we offer \$1,000 for proof that it contains any mineral ingredient whatever. The general health improves as the Specific purges the system of impurities, and as new, rich blood begins to flow in the veins the unsightly sores and other evidences of blood poison di

many cases the pitiful and even pathetic resuits of that aliment known by the various tities of Sexual Debility. Nervous Debility and Sexual Neurasthenia. A variety of causes contribute to this condition and a variety of symptoms manifest its presence. It arises in a majority of cases from excessive indulgence or youthful foilies, yet it is in many instances caused also by mental worry, overstudy, business reverses and excessive use of alciholic stimulants or tobacco. Oftentimes men are met with who apparently enjoy good physical health, yet lack that one very essential requisite of perfect manbood, viz: Sexual vigor. The victim of this aliment is invariably very sensitive in regard to his condition and feels keenly the humiliation that it entails. As Sexual Debility is of necessity a nervous disease, it brings with it that train of evils that attend all disorders of the nervous system. The most deplorable of these exis are without doubt the effects on the mind. Gloom and despondency, fear of impending danger, a poor memory and inability to concentrate the mind are among the most prominent of the mental effects of Sexual Debility. The physical fils include pains in the head, ringing and buzzing noises in the ears, spets before the eyes, pimples on the face, dark circles around the eyes, pains across the back, and a generally tired, languid and exhausted feeling. There are night emissions and also hidden losses and drains that are extremely exhausting and debilitating. These symptoms do not all appear at one time in a man suffering with Sexual Debility. Any man who is so unfortunate as to be a victim of this most distressing aliment should, if he seeks a cure, consult Dr. Milen. It is immaterial that you have falled

THEODORE TILEN, T. D.

to find a cure elsewhere, for Dr. Milen's methods and remedies are so radically different and so remarkably effective that a speedy cure, even in aggravated cases of long standing, is readily accomplished. In his studies and investigations, Dr. Milen has thoroughly examined into and analysed the causes, conditions and results of sexual weakness in men, and his own special, original and exclusive method of treatment is the result of these studies.

The effect of the treatment is magical. It imparts the fire of youth and the vigor and strength of healthy physical manhood. It renews vitality and gives new life and energy, It inspires ambittion and confidence. It causes the eye to sparkle and the glow of health to appear in the face. The elastic springy step returns and there is that self-satisfied feeling that is the natural result of sound physical health and mental brightness.

AGED MRS. ZANCK IDENTIFIED.

Discovered by Her Daughter in the City Hospital. After a week's search, Mrs. Kate Morris of No. 1823 Biddle street, found her mother, Mrs. Johnnya Zanck, who disappeared last Tuesday, yesterday at the City Hospital. Mrs. Zanck, who is 82 years old, was found wandering about near Twenty-third street and Franklin avenue. The old lady was suffering from a scalp wound, and could not tell where she lived. She said that she was in search of her son, John Zanck, who lived on Franklin avenue. The pedice sought to find a John Zanck, but unavailinally, and Mrs. Zanck was sent to the City Hospital.

The old lady made her home with Mrs. Morris. The latter conducts a secondhand store at No. 185 Mogran street, and was forced to leave her mother alone each day. Thesday aged Mrs. Zanck went for a walk and lost her way. Her flying was probably received in a fail.

When Mrs. Zanck did not return Tuesday evenius, Mrs. Morris became anxious, and has since been searching for her parent. She called yesterday at the City Hospital and was overjoyed to find that her mother was a patient at the institution.

REPUBLIC SPECIAL. New York, June 19.—Rather than appear in court, Albert Brons, 79 years old, a wealthy resident and one of the ploneer settlers of East New York, committed sui-cide to-day in his home by cutting both his wrists and swallowing paris green. His son discovered his father in a dying condition. After the death of his wife he employed a housekeeper and engaged Mary Haas.

### Disputes between the two were not uncommon. He was summoned to court to-day on a charge of attacking the housekeeper, and that worried him. He continually declared that his "old days had been disgraced, and it would kill him." When George Brons, a son, arrived at his father's home this morning he found the old man with both his wrists cut, a razor on the floor and a glass containing a dark sediment on a table near him. LEFUBLIC SUFCIAL.

New York, June 16.—Rose Violetta is the stage barne of a young woman who played soubrette parts in road companies, and who lived at No. 23 West Thirty-fourth street in this city until a week ago, when she left for Chicago in company with Louis Hartman. Her friends said to-night that she met Louis Hartman three weeks ago, and went away with him, although they warned her that he carried a revoiver, and was at times mentally unbalanced.

Louis Hartman is only about 21 years old and is said to have been placed in a sanitarium by his father on several occasions when he broke down after a period of dissipation. He was a son of Max Hartman, a wealthy cigar manufacturer. He was a graduate of Columbia Law School, and in March, 1887, when he was If years old, he was married to Mae Belle Davis, an actress, whom he met on the previous evening.

Negro Boy Suspected of Double

Atlanta, Ga., June 10.—Mirs Bessie Jackson, the adopted daughter of R. C. Flower, a dairyman at Poplar Springs, a suburb, was found murdered near her home to-day. She had been missing since last Thursday. A negro bey employed on Mr. Flower's place has been arrested on suspicion, Her throat was cut.

At the Coroner's inquest Doctor G. H. Green testified that the girl had been critimnally assaulted. There was, however, no direct testimony implicating the negro, whose name is Gathro English.

There is considerable excitement in the neighborhood and the negro will be brought into the city this evening.
